# WELCOME TO GCNT - 2024

Strenuous Group takes pleasure to announce our Global Conference on Nano Technology: Research & Development (Nano Forum 2024) has been scheduled as a Hybrid Event during April 17-18, 2024 in London, UK. With indeed focus on the essential progression of developments and advancements through the latest upfront Nano Science: Research & Development. This meeting includes several interactive sessions specifically designed for highly acclaimed educational activity which has been considered one of the predominant meetings on this subject. The objective of the Nano Technology Conference-2024 is to reinforce Contemporary Advances and Innovations in Nano Science: Research, Abstracts must contain original research data collected by the author(s). Presentations will be selected based on their articulation, design, and other characteristics, which cover wider aspects of Nanoscience research as well as its policies related to the themes. The conference was enhanced through the provision of an interactive keynote, Delegates workshops, and oral, and poster presentation sessions. The committee aims to create a friendly, warm network environment among participants which makes it easy to interact with other colleges/attendees to connect with each other and share their ideas and establish the foundation for future vision and development. We look forward to meeting you.

Abstract Submissions : April 01, 2023

Open Registrations : April 01, 2023

# SCIENTIFIC SESSIONS

- Research on Covid-19 Medicine and Vaccine
- Applications of Nanotechnology in Corona Virus Diagnosis & Treatment
- Life Sciences & Nanomedicine
- Nanoscience and Technology
- Nanobiotechnology and Nano safety
- Nano chemistry and Wet Nanotechnology
- Energy and Environment
- Nano computational modeling
- Nano Engineering
- Nanotech : In other fields
- Nanomaterials, biomaterials and synthesis
- Pharmaceutical nano technology
- Environmental Nano technology
- Nano technology Applications
- Nano characterization and Nano manufacturing
- Carbon nano technology
- Nano toxicology
- Nano metrology
- Green Nanotechnology and Water Treatment
- Nano electronics and Nano photonics
- Nano medicine and Nano Sensors.
